# A MESSAGE FROM OUR CO-FOUNDER

Happy new year! As I reflect back on TTH's impact in 2021, the biggest thing that stands out to me isn't the individual accomplishments, but our organization's resilience as a whole.

It was another tough year for many people and many nonprofits, but despite that we were able to continue to support those who needed us - and so our biggest impact is that **we were there**. We were there to provide a community, we were there to send Comfort Kits, we were there to make a difference.

We know not all of our fellow nonprofits can say the same, and we are grateful for all of our donors, volunteers, and partners who made it possible to be there in 2021.

While uncertainty continues to lie ahead, we will do our absolute best to always be there in whatever way we can. Thank you for being on this journey with us!
